WELCOME

to London South Bank University (LSBU)

London South Bank University (LSBU) is a prestigious UK public university based in central London, renowned for industry-focused education and strong graduate employability. With over 125 years of academic excellence, LSBU delivers career-driven programmes designed in collaboration with global employers. LSBU Business School emphasises practical learning, real-world projects, industry partnerships, and professional relevance, ensuring graduates are workplace-ready. Its prime London location offers unmatched access to global business networks, internships, and career opportunities.

LSBU is the **number one**
London Modern University
for **graduate prospects**

International collaborations

LSBU has extensive, long-term and substantial collaborations with respected higher education institutions throughout the world in countries such as China, USA, Brazil, India, Sri Lanka and Thailand (see map to the right). These links support the development and delivery of our curriculum, to ensure it is relevant in a global environment. Our collaborations at both undergraduate and postgraduate level range from student and staff exchanges, admission arrangements, articulation agreements and part-franchise masters-level programmes to PhD programmes.

BCAS

CAMPUS

BRITISH COLLEGE OF
APPLIED STUDIES

The British College of Applied Studies was established in 1999 and is more popularly known as BCAS Campus. BCAS has, over the years, progressed into becoming one of the leading vocational and tertiary education providers in Sri Lanka with a comparatively larger student population and a panel of well qualified and experienced lecturers. Campus has won more than 19 Local and International awards since its inception.

Sri Lankan Students are able to study for premier UK degrees without having to leave the country as BCAS offers a wide range of highly-recognised industry related HNDs, undergraduate and postgraduate degrees in collaboration with reputed British universities. Besides its fully-equipped modern campuses in Colombo (Colombo 03) and three regional campuses are operated in Kalmunai, Kandy and Jaffna, to help save the students of Central, Northern and Eastern Provinces quite a lot of money by way of traveling to Colombo and accommodation.

BSc (Hons)

QUANTITY SURVEYING

TOP-UP DEGREE

1 Year
Duration

120
Credits

Physical
Classes

The BSc (Hons) Quantity Surveying (Top-Up) is designed for students who have completed a relevant Level 5 qualification and wish to progress to the final stage of a UK honours degree. The programme develops advanced knowledge and professional skills in construction economics, cost planning, measurement and quantification, procurement, tendering, contract administration, project cost management, commercial appraisal, sustainability, and whole-life value.

Students gain practical experience through realistic construction scenarios, cost and commercial analysis, professional case studies, Building Information Modelling (BIM), digital measurement, and modern cost-management technologies. The programme also strengthens analytical, research, communication, problem-solving, and professional decision-making skills. Through the Independent Research in Quantity Surveying module, students investigate a contemporary industry issue and complete an academically rigorous dissertation.

PROGRAMME MODULES

No.	Semester	Module Name	Status	Credit
1	1	Construction Management & Entrepreneurship	Compulsory	20
2	1	Construction Contract Practice	Compulsory	20
3	1 & 2	Independent Research in Quantity Surveying	Compulsory	40
4	2	Project Cost Management and Appraisal	Compulsory	20
5	2	Sustainability in the Built Environment	Compulsory	20
TOTAL			120

BSc (Hons)

QUANTITY SURVEYING PROJECT MANAGEMENT

TOP-UP DEGREE

1 Year
Duration

120
Credits

Physical
Classes

The BSc (Hons) Quantity Surveying (Project Management – Top-Up) develops advanced skills in Quantity Surveying, construction management, project cost control, contract practice, planning, scheduling, risk management, and digital project controls. Students gain practical experience through real-world construction scenarios, BIM, cost analysis, progress monitoring, and project planning activities.

The programme also includes an Independent Research Project, allowing students to explore a contemporary Quantity Surveying or built-environment issue. Graduates can pursue careers in Quantity Surveying, project management, commercial management, contract administration, cost consultancy, and construction planning.
